

CHAMPIONS

June 21, 2013

Mark,

Thank you so much for taking the time to meet with me during the past few weeks. It has been wonderful to get to know you better, and I certainly appreciate the opportunity to learn more about how Champions can support your needs in Pennsylvania.

Champions is excited at prospect of working with the Career and Technical Schools throughout the state of Pennsylvania. We are thrilled to learn more about your needs and how our preschool, kindergarten and school age programs can support your children and families. Champions' model provides a unique experience for young children and students that supports traditional school day learning in a fun, creative way. Our model would also include opportunities for students to volunteer in our program to gain valuable work experience. Our partnerships bring so much to the communities we serve. We hire all staff locally and also provide revenue-sharing opportunities for our school partners. Champions is so looking forward to engaging in further conversation with the Task Force to develop these opportunities.

We would be pleased to participate in the upcoming PACTA conference at the end of July. It will be a great opportunity to collaborate with your administrators and develop the next step in our partnership. Again, I appreciate the chance to work with Task Force and I look forward to the next steps in our partnership.

Warm Regards,

Kim Jennings
Manager of Business Development
